

The Nation's Largest Vanpool Provider

Save Money

Save Time

Save Your Sanity

SAVE OUR AIR

Vanpool Benefits for Commuters

- Save Money– The average vanpooler can save up to \$5,000/year compared the cost of driving alone.
- Save Time– A vanpool can use the (HOV) High Occupancy Vehicle lanes, reducing the time spent commuting to and from work each day.
- Save Your Sanity– Commuters in vanpools don't have to fight traffic congestion. In a vanpool you can sleep, read or just relax on your commute to and from work.
- Save Our Air– One vanpool removes as many as 14 vehicles and their emissions from the road each day.
- Save Your Personal Car– Commuters save on the wear-and-tear of their own vehicles therefore less maintenance and mileage

What is a Vanpool?

A vanpool is a group of 7 to 15 people who commute together on a regular basis in a roomy, comfortable van. One person volunteers to be the driver of the vanpool and normally rides free. The riders share the cost of operation.

It's cool to vanpool!

Who Vanpools?

Typically, commuters who:

- Have at least 30-minutes drive or travel more than 15 miles one-way to work.
- Maintain a relatively consistent work schedule.
- Want to save money, time and our environment.

Vanpool Benefits for Employers

- Improve Employee Productivity- by alleviating average commuting times and stressful driving conditions
- Improve Workforce Morale- by lowering commuting cost and offering valuable tax-savings.
- Expand Your Labor Market- by making your facility more accessible to potential employees who live far away.
- Reduce Parking Requirements- and the costs associated with maintaining or building parking facilities.
- Enhance Your Public Image- by providing a benefit to your employees that is good for the community and the environment and earn recognition as of the *Best Workplaces for Commuters*.
- Attractive recruiting tool and an enhancement to your benefits package that offers alternative transportation for employees.

How Vanpools Help the Environment

- * **Reduce carbon dioxide emissions** from personal automobiles no longer used for commuting
- * **Alleviate traffic congestion** and the strain on the nation's roadways taking up 14 cars off the road with a single van.
- * **Reduce fuel consumption** and our dependence on foreign oil.
- * **Reduces costs** to maintain, repair and upkeep streets and highways with reduced vehicle usage.

15 Passenger Vanpool– Annual Impact

- **MILES ELIMINATED = 336,840**
- **FUEL SAVINGS (GALLONS)= 13,368**
- **CO2 REDUCTIONS (TONS) = 136.44**

This year vRide's vanpool program will:

- **ELIMINATE 14 MILLION VEHICLE COMMUTING TRIPS**
- **CONSERVE OVER 26 MILLION GALLONS OF FUEL**
- **ELIMINATE OVER 250,000 TONS OF CO2 EMISSIONS FROM THE ATMOSPHERE**
